

One headset with three
wearing styles

Lightest headset
in its class

plantronics®

Comfort choice without compromise

HW540

An ideal choice for customer service and noisy office environments, the HW540 is the lightest convertible headset in its class, delivering premium audio and all-day comfort in three, easily swappable wearing styles.

HW540

Comfort choice without compromise. This convertible headset delivers signature Plantronics audio performance and uncompromised comfort in three wearing styles, so you can give people what they want without giving yourself an inventory headache. Using proprietary materials, this purpose-built headset is the lightest and most comfortable in its class, yet durable enough to handle even the busiest contact center or office environment.

3-IN-1 DESIGN

- Minimizes inventory and satisfies a broad user base by allowing them to choose among over-the-head, over-the-ear, or behind-the-neck wearing styles
- Takes only seconds to convert wearing styles using the patent-pending C-clip connection

EXCEPTIONAL COMFORT

- Each of the three wearing styles offers a soft foam ear cushion and a balanced boom mic that stays put for all-day wearing comfort

FLEXIBLE BOOM & NOISE-CANCELING MIC

- Noise-canceling boom mic is thin and flexible with visual and tactile marks to easily position for best voice clarity and a perfectly customized fit
- Reduces distracting background noise and allows for clear transmit for more focused conversations

ENHANCED AUDIO PERFORMANCE

- Signature Plantronics acoustic technology supports wideband audio to deliver natural, brilliantly clear voice to customers, while SoundGuard™ protects wearer from noise spikes and listening fatigue

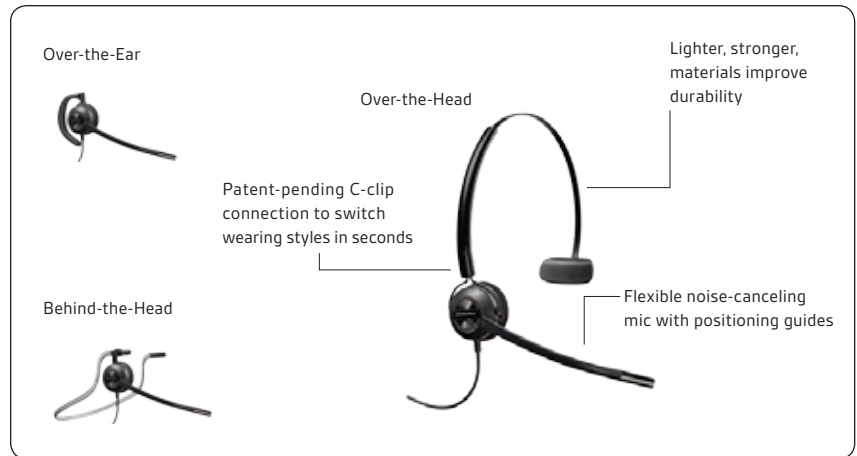

INNOVATIVE MATERIALS

Lighter, stronger, proprietary materials improve durability against common tearing, abrasion, and flex fatigue, plus the quick disconnect lasts years longer than a USB PC port connection.

- Mylar speaker diaphragms: rigid but ultra-lightweight
- Neodymium speaker magnets: offer highest magnetic flux to improve sensitivity
- Voice coils: thin wire coils allow for greater sensitivity
- Boom: custom spec polymer provides a winning combination of flexibility of rubbers and the strength of plastics. Resistant to tearing, abrasion, flex fatigue, and temperature
- Super-soft foam ear cushion (or premium leatherette as a spare): stays cool on the ear while providing ultimate comfort and superior audio

RECOMMENDED ACCESSORIES

- Large and small leatherette ear cushion (large for headband version only)
- Large foam ear cushion for headband use only
- DA Series adapter for PC connection
- Audio Processor or Direct Connect cable for desk phone connection

Connects to	PC + desk phone
Ideal for	Telephone intensive users, such as traditional formal and informal contact centers and phone intensive roles.
Headset weight	Over-the-head - 32 grams; Over-the-ear - 22 grams; Behind-the-head 24 grams
Audio performance	Premium audio from wideband voice telephony (up to 6,800 Hz), noise-canceling microphone
Hearing protection	SoundGuard: Acoustic limiting for protection against sounds above 118 dBA
Limited warranty	2 years
Model	HW540 (convertible monaural: over-the-head, over-the-ear, behind-the-neck)
