

## USB Digital Audio Adapter

If you're moving to Voice over IP, or any other voice-driven application, you need the Jabra GN8110 USB – a professional quality headset adapter that dramatically improves performance for any PC voice application. With the Jabra GN8110 USB, you can connect your Jabra brand corded or wireless headset directly to your PC's USB port bypassing the sound card. The Jabra GN8110 USB virtually eliminates sound card compatibility problems.

Certified for use on Windows® 98 SE, 2000, ME and XP (as well as Mac OS 9.04 or greater), the Jabra GN8110 USB is a true plug 'n' play adapter. There's no software to install. Just plug your Jabra brand headset into the adapter, and plug the adapter into your PC's USB port. You get clean, distortion-free SmoothStream™ digital audio, without the distracting echo effect common to IP Telephony. In fact, any voice-driven application will benefit from the crisp, highly intelligible, "direct-to-digital" sound quality of the Jabra GN8110 USB.
