

# Jabra GN8120 USB

## USB-to-headset adapter with superior performance and telephone-like simplicity

- Enhanced digital audio quality for all VoIP applications
- Fingertip call control buttons and visual LEDs
- Emergency calling, unrestricted access function
- Commercial-grade design for uncompromising durability and exceptional performance
- Desktop and laptop variants available
- Compatible with any Jabra (QD) headset

The Jabra GN8120 USB is a digital USB-to-headset adapter that delivers superior audio quality and simplicity for your VoIP softphone. Convenient in-line softphone controls mean you can enjoy optimized use of your softphone application immediately.

### Superior audio performance

Digital Signal Processing (DSP) and SmoothStream™ technologies remove impurities

from the call signal and improve the performance of even the most demanding VoIP applications.

### Familiar telephone-like simplicity

With a simple button press, users can answer/end calls, put calls on hold, use speed dial, increase/decrease call volume and mute the microphone\*. LED indicators quickly alert users to incoming calls as well as onhook/offhook, hold and mute status and new voice messages.

### Investment protection

Commercial-grade design means durability and long-term reliability, even for the most demanding contact center environments.
