

N17 Combination Lock for Wedge-Shaped Slots

The improved N17 Combination Lock for Wedge Slots is a keyless locking solution to secure laptops and tablets with a wedge-shaped lock slot.

68008

Product Description

The N17 Combination Lock for wedge-shaped slots delivers increased strength in a smaller size. It's the strongest keyless locking solution for laptops and tablets with a wedge lock slot, independently verified and tested for industry-leading standards in torque/pull, foreign implements, lock lifecycle, corrosion and other environmental conditions. The N17 Combination Lock for wedge-shaped lock slots features a stronger cable with greater pull strength, an updated slider for easy one-handed engagement of the lock and a resettable 4-wheel number code that can be set to any of 10,000 possible combinations.

Features

- Tough lock head is internally verified and tested for industry-leading standards in torque/pull, foreign implements, lock lifecycle, corrosion, and other environmental conditions.
- Unique lock engagement featuring expanding side "hooks" that grab the internal sides of the wedge-shaped lock slot, creating a strong connection between the device frame and the lock to resist and deter theft.
- Carbon steel cable is cut-resistant. Plastic sheathing protects desks, tables, and other fixed-structure attachment points.
- Enables one-handed attachment via a re-engineered slider that allows for quick and easy engagement into the device.
- Resettable 4-wheel number code with 10,000 possible combinations, selectable by the user.
- Register & Retrieve™ allows for quick, easy, and secure lookup if the combination is ever lost or forgotten.
