

VIRTUAL PHONE BOOTH

.AUDIO 480 USB SOUND-ISOLATING STEREO HEADSET

Keep the Music In and the Noise Out!

In an airport, on a train, or a busy hotel lobby, the Plantronics .Audio 480 USB's sophisticated features and sleek profile make life on the go more enjoyable. The flexible boom lets you bring the microphone close for private conversations. Sound-isolating earbuds block out unwanted noise, allowing you to immerse yourself in rich stereo sound. Callers benefit too—a noise-canceling microphone minimizes external noise, making it easier for them to understand you. When it's time to be on your way, the headset folds and fits easily into a crowded briefcase.

Works with Windows® & Macintosh® Optimized for SKYPE®, Windows Live™ and Yahoo!® Messenger

- High-quality stereo—Sound-isolating earbuds help keep noise out, so that you can tune in to music, movies, or streaming Internet audio without distraction.
- It's like being in your own private phone booth, where you can focus on conversation without distraction.
- Comfortable microphone placement—place the microphone exactly where you want it.
- Wind noise reduction improves voice clarity when you're in transit.
- The noise-canceling microphone helps block out external noise, making it easier for callers to hear and understand you.
- Stow and go—the boom conveniently folds out of the way and the headset is extremely portable. In just a few seconds you can fold up the headset and be on your way.
- Laptop-friendly—the .Audio 480 enables you to plug in to Internet calls and great music wherever you go with your laptop.
- Dual Connectivity—Flexibility to connect using an analog connection or with the included USB adapter.

(.Audio 480 USB version only)

USB adapter included with the .Audio 480 USB version only.
