

# Polycom<sup>®</sup> Communicator

## Features and Benefits

### High fidelity, hands-free Skype<sup>®</sup> calls

---

#### Hands-Free Freedom

- Untie yourself from your headset without sacrificing Skype call quality
- Plug into the built-in stereo headphone port for private conversations

---

#### High Fidelity Wideband Voice Quality

- The best possible voice quality over Skype
- Hardware supports up to 22 kHz audio for high-fidelity, CD-quality music and presentation audio

---

#### Skype-Certified

- The only Skype certified speakerphone that delivers business-class, high-fidelity performance

---

#### Two High-Quality Microphones

- Make sure others on your Skype calls can hear you clearly
- Ideal for group conversations over Skype

---

#### Polycom's Legendary Acoustic Clarity Technology

- The only true full-duplex hands-free Skype experience for more natural conversations
- Eliminate echoes and feedback

---

#### Easy to Use

- Connects and powers through integrated USB cable
- Convenient buttons enable you to launch Skype, pick up and hang up calls, and control volume and mute

---

#### Ultimate Portability

- Pocket-sized for easy travel
- Integrated USB cable stores inside
- No extra cables to carry or batteries to charge
- Convenient carrying case is included
