

Polycom® CX Phone Family Optimized for Microsoft® Office Communications Server 2007

Benefits

Meets your unique business needs –

Polycom offers a broad array of telephone devices designed specifically for use with Office Communications Server 2007

Easy to use –

USB peripherals work seamlessly with Microsoft Office Communicator 2007, no drivers or other software to install

Superior audio – the higher quality of more traditional phone devices eliminates the need to rely on a computer's speakers or wear a headset

True business class solutions –

superior quality and durability

OPTIMIZED FOR

Microsoft®
Office Communicator

A complete unified communications experience at a significantly lower total cost of ownership

The Polycom CX family delivers the high quality, high definition wideband audio experience users expect from Polycom. Whether you choose the hands-free CX100 speakerphone, CX200 desktop phone, CX700 IP phone, or all of the above, each provides full, convenient access to the advanced presence enabled features of Microsoft® Office Communications Server 2007.

The CX family represents a broad array of telephone devices designed specifically for use with Office Communications Server 2007. And the benefits are numerous. Clear, high definition, wideband audio maximizes the accuracy and productivity of real time conversations. Advanced audio processing for full-duplex speakerphones maximizes audio quality. Plus, three different form factors with familiar telephone user interfaces both complement and offer convenient access to the advanced features of Office Communications Server 2007 and Microsoft® Office Communicator 2007.

The CX product family is part of a complete unified communications experience that offers a significantly lower total cost of ownership. No matter how diverse your communications environment, there is a CX phone designed to meet your business needs.

Make Great Things Happen with the Polycom CX Family of Phones

In today's Internet driven world, the ability to conduct real time communication and collaboration has become critical to an organization's survival. As the market leader in voice, video and content collaboration and communications, our award-winning conference technology makes it easy for people to interact and maximize productivity — over any network, in just about any environment, anywhere around the globe. That's why more organizations worldwide use and prefer Polycom conferencing solutions. Because when people work together, great things happen. See how you too, can achieve great things with the Polycom CX family of phones.

The Polycom CX family, like all of the Polycom collaborative communications solutions, is available through the Polycom worldwide channel of distribution partners and resellers, and is backed by the Polycom worldwide service and support network.

VideoVoiceDataWeb
