

Business Class Headset

Wherever you go – The BW 900 uses the new Bluetooth® Class 1, which allows you to roam up to 100 meters away from your desk phone base station. For even more freedom to move, redirect calls to your cell phone. Whenever your mobile phone is with you, the headset is within range.

It's intelligent – A collection of digital signal processing (DSP) technologies called Adaptive Intelligence™ enables the BW 900 to adapt constantly as you move. You experience clear, intelligible speech wherever you are. And since it takes two to talk, the BW 900 makes sure your voice comes through loud and clear. What's more, Adaptive Intelligence™ remembers your preferred individual settings in different sound environments and applies them automatically as the surroundings change.

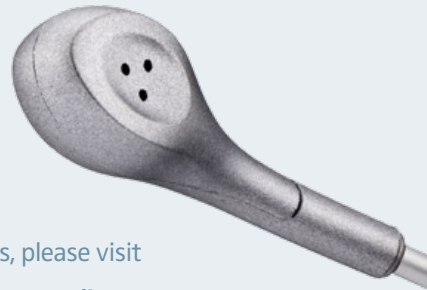

It's up to you – One headset does it all. Bluetooth ver. 1.2 allows connectivity to all voice-enabled Bluetooth devices. With the touch of a button, you can seamlessly switch (toggle) between your office telephone and your Bluetooth-enabled mobile phone.

The ultimate in wireless communications

The BW 900 is a premium wireless headset from Sennheiser Communications featuring **Adaptive Intelligence™** technology. This provides you with optimum speech intelligibility in any situation, maximum all-day listening comfort, automatic adaptation to the sound environment and it remembers your preferred settings. This headset is the tool to help you get the most out of your working day. With the **ultimate sound** and perfect fit, you are set free to communicate.
