

UI710 Considerate about your need for space

- ▶ The most compact and basic universal interface model, for an already crowded desk or a tight budget
- ▶ Allows switching between headset and handset

About the size of a matchbox, this very compact and basic model serves as the middleman as it connects telephone and headset cables.

- ▶ Enables the user to switch between handset and headset at the touch of a button
- ▶ Line powered, therefore no battery or AC transformer required
- ▶ Features a particularly space-saving, modern design as well as ergonomic and discreet cable connection
- ▶ Compatible with all Sennheiser Communications telecom headsets
